AGRÁRMINISZTERIUM

34th Annual Meeting and International Conference of DAGENE co-organized by Faculty of Agriculture, University of Novi Sad, Serbia, 17-19 September 2025

Second call for Abstracts 2025

Dear DAGENE Member!

We want to support the continuation of our Proceedings, so this is the reason for the call for Abstracts. The decided date of our next, 34th Annual meeting is **17-19 of September, 2025** in **Novi Sad, Serbia**. In our First call the deadline to send us the Abstract was June 10th, 2025.

We would like to inform all prospective participants that the deadline for abstract submission has been extended. The new deadline is **July 15th, 2025**.

This extension was granted in response to the considerable interest in the conference and to allow authors additional time to prepare their contributions. We warmly encourage you to take advantage of this opportunity and to submit your abstract by the new deadline, following the instructions outlined in the DAGENE 2025 Abstract Guideline (available on our official website).

Abstracts should be submitted electronically to: dagene2025@stocarstvo.edu.rs with the Subject: *DAGENE Abstract 2025*.

According to our plan, Abstracts will further be sent to reviewers, who are responsible for the acceptance or rejection. All accepted abstracts will be published in Book of Abstracts.

We wish you good health and time for preparation, and looking forward to welcoming you to Novi Sad in September 2025!

With best regards,

Prof. dr Saša Dragin
